

## **Vital Revelations About How Masks Damage Children (Permanently)**

**Dr Vernon Coleman**

The lowlight of recent days has been the way schools everywhere have been planning to destroy the minds and bodies of their pupils by forcing them to wear masks.

I recently saw a long letter from the head a school in the UK which caters to children aged 11 and upwards. The letter is the most repulsive piece of crap I have ever seen emerge from any orifice belonging to a schoolteacher. I speak, I should remind you, as a former GP who has seen more than his fair share of excrement.

Before I start, I should remind you that a recent survey showed that schoolteachers are less likely to catch covid-19 than other adults. Also, the infection is so rare among children, and so harmless to fit and active schoolchildren, that any child who becomes seriously ill with covid-19 will probably find themselves lead item on the next BBC news bulletin.

Here's what this gibbering head has to say about what the pupils can expect when they return to what was presumably once called a school, but which should now be referred to as some sort of concentration camp.

The head buffoon starts by announcing that during their first day in school healthy students will undertake a lateral flow test for covid-19 at the school's test centre. This, of course, is entirely pointless because the biggest scientific study I've ever seen showed that asymptomatic spread of covid-19 does not occur. If you think about it, this makes sense. Like all varieties of the flu this disease is spread by coughing and sneezing. If you're not coughing or sneezing...

The worst bit of this long and intensely boring and unnecessary letter, however, is the bit that states that 'unless medically exempt, students must wear a face mask at all times', though presumably not when eating or drinking.

Presumably, they must, therefore, continue to wear masks if they are unable to breathe or if they are, for some reason, vomiting. No mention of not wearing masks when exercising even though a number of children have definitely died while wearing masks during exercise. I assume the school will have an undertaker on constant call to deal with this eventuality.

Students are also told that they must take with them a bottle of water and some sanitising hand gel.

Oh, and windows and doors will be open and in colder weather students can wear coats in classrooms with the permission of their teacher. This is a parody of lunacy, or is it lunacy itself?

If students use school or public transport, they must wear a face mask. No mention here of exemptions. The school instructs that face masks should be washed each evening. So pupils will presumably be wearing their masks all day long – regardless of the generally accepted medical view that masks should not be worn for more than two hours and definitely not for more than four hours. Forcing children to wear masks for eight hours a day is pretty nearly as daft as hitting them over the head with a cricket bat for eight hours a day. It's child abuse and should be punished accordingly. When politicians and doctors are tried and convicted, teachers will be tried and convicted for mass child abuse.

There will be a major epidemic of bacterial pneumonia among schoolchildren as a direct result of the stupid mask wearing. And children will develop dementia in a few years' time. That's not theory. The medical evidence is available. Take a look at the free pdf of my small booklet Proof that masks do more harm than good. It's available on [vernoncoleman.com](http://vernoncoleman.com), [vernoncoleman.org](http://vernoncoleman.org) and the [lightpaper.co.uk](http://lightpaper.co.uk). And take a look at my other videos and articles about masks – I seem to have been warning about these damned things for decades.

And anyone who loves masks must hate the environment. As I have reported previously billions of discarded masks, paper and cloth, are turning up in the countryside and in the sea. You can't care about the environment if you wear a mask. It is something of a sick joke that the people who opposed plastic bags and straws now promote face masks. The hypocrisy is staggering.

And I wonder, incidentally, how many of the schools which insist on masks being worn also use WIFI – despite the clear evidence of the harm this does to children.

Next, what the hell happens to the brave children who turn up to school without masks because they have an illness which makes mask wearing particularly dangerous? In America, an astonishing 8.4% of school children have been officially diagnosed as suffering from asthma. For a variety of reasons which have nothing to do with children or their health the percentage is probably a little lower in the UK. But even if only 5% of children have asthma then that means that 5% of children cannot possibly wear masks. Add in other disorders which make mask wearing absurdly dangerous and it's safe to say that one in ten children must not wear masks. For teachers who aren't good at maths, that's three children in a class of thirty. And what about children who wear spectacles which will steam up – preventing them from seeing the blackboard? And children who rely on lip reading will be stuffed.

I've seen one head teacher say that children who don't wear masks must stay at the back of the class and not mix with other pupils. They will be officially ostracised. That's discrimination and I'm pleased to say that it's still illegal in most countries – though I've no doubt that the Agenda 21 and Great Reset enthusiasts will see that that's changed. Teachers should have the guts to stand up and refuse to carry out these cruel and fascist orders.

Who the hell are these teachers who promote masks? Where did they train? Are they left over guards trained at Dachau or Auschwitz? Any teacher who treats non-mask wearing children differently should be sacked immediately. Even the BBC has reported that teachers are not at significantly higher risk of death from covid-19 than the general population.

Let me be blunt for a change. Not my style, I know, but this makes me truly furious.

The bottom line is that any teacher who insists on children wearing masks is evil and should be locked up for child abuse. Six of the best with a used plimsoll is nowhere near enough. Permanent incarceration in an institution of ill repute is the only sensible solution. There is no need to try the bastards because there can be no doubt about their guilt. Just lock them up and then force them to swallow the key.

My message to parents is simple – threaten to sue any teacher who wants to force children to wear masks.

My message to children who don't wear masks – for whatever reason – is simple. You have courage and my respect. You may suffer discrimination and even abuse – but remember, every month that goes by you will gain several percentage points, both physically and mentally, on your mask wearing school mates.

Evidence shows that those who wear masks become physically debilitated and mentally weaker. And this is truer of children than of adults.

So, the child who wears no mask will gradually climb towards the top of the class in both physical and mental terms.
