WA Premier, Mark McGowan, Resigns as Death Rates Explode after Mandatory Jabs

The information below proves there was never any justification for discriminating against unvaccinated people during the alleged 'pandemic' in 2020-22. Please send this [template letter to your employer or club](#), where you experienced discrimination, to ensure this crime never happens again.

In 2021-22 many Australians were subjected to medical discrimination that violated all medical principles and ethical guidelines, and Australia's ratified International Human Rights Covenants. This has resulted in broken relationships with family and friends that have still not mended.

This rift in society cannot be healed until the truth about these COVID injections is exposed. Medical Professionals are now informing the public of the dangers of COVID 'vaccines' through the [Australian Medical Professional Society \(AMPS\)](#) website.

In addition, renowned British Cardiologist, Dr. Aseem Malhotra, is currently touring Australia to reveal the dangers of COVID 'vaccines'. He will be in Perth on 10th June 2023. Interestingly, Mark McGowan, who mandated these injections for 75% of the workforce in 2022, has resigned as Premier of Western Australia on 29th May 2023.

In 2020 governments informed the public that this new modified mRNA injection was a 'vaccine' to prevent COVID19 disease and that it was the solution to a (so called) 'pandemic'. However, the truth is that these experimental injections/drugs were never tested to determine if they were effective at preventing 'any' COVID19 disease. Consequently, they cannot be called a 'vaccine'.

In addition, they were never proven to be safe, in the short two-month trial before marketing, as was exposed in Pfizer's own documents - ['Pfizer, FDA and CDC Hid Proven Harms to Male Sperm quality, Reproductive Function from mRNA Vaccine Ingredients'](#)

Indeed, the false information provided by the government about this experimental drug is confirmed in this peer-reviewed journal article ['The mRNA vaccines are neither safe nor effective, but outright dangerous'](#)

Despite all this evidence, the Australian government falsely promoted this drug as a 'vaccine' that was 'effective' at preventing COVID19 disease and that it was 'safe'. But it was never proven 'safe' or 'effective'. Shockingly, people were then threatened with job loss, prevented from travel, and excluded from social participation which forced and coerced many into having the mRNA experimental injection.

People who chose not to get the COVID injection were removed from society. Further, because the public was misinformed via the media that getting the 'vaccine' was for the good of the community, there was a complete lack of sympathy toward those who were excluded for 'not' being injected.

The victimization continued with 'cancel culture' which promoted the shaming of those who questioned the experimental injections and labelled them as 'antivaxxers' – all without scientific evidence.

The consequence of this bullying was abuse and ostracism from social and professional groups. The bullying was led by the Premier of Western Australia, Mark McGowan. In 2021-22 he told parents to 'grow a brain' and to 'stop being a drop kick' by remaining unvaccinated. His declaration in January

2022 that he 'was going to make life very difficult for the unvaccinated' was not based on any health advice.

Two years after the COVID injections were rolled out (Feb 2021) it has been revealed that millions of people globally have died or had their quality of life destroyed by these mRNA injections that are not vaccines. ['The Official Excess Death Figures globally are in the Millions'](#)

The mainstream media is still not reporting these facts to the community in 2023. A Class Action has been set up in Australia to help thousands of people whose lives have been destroyed by COVID injections - [Class Action: COVID-19 Vaccine Related Injuries](#)

The injuries include strokes, heart attacks, infertility and reproductive issues, blood clots, joint and muscle pain, dementia, autoimmune diseases (neurological), cancers, death etc. It is now a pandemic of the vaccinated and hospitals are under immense pressure due to the vaccine injuries.

In Australia in 2021-22, like all highly vaccinated countries, we experienced a significant unexplained 15.1% increase in all-cause deaths, across all age groups. This occurred simultaneously to the roll out of the so called 'vaccine'. It did not occur in 2020, during the alleged 'pandemic', but at a time when the solution was rolled out. So, if the 'vaccines' were safe and effective, a decline in deaths and illnesses should have been observed by 2023, not an increase.

This increased mortality has not been explained by the government and our federal government has just voted to [decline to investigate this huge increase in deaths](#). Indeed, the Australian government, through the [Department of Home Affairs](#), assisted in suppressing medical doctors, scientists and academics who were aware of these facts in 2020-22. This is confirmed by doctors on the [AMPS website](#).

Censorship by the corporate-sponsored mainstream media and [big Tech social platforms](#) plus, the [deregulation of doctors by their regulatory board](#) - Australian Health Practitioners Regulatory Authority (AHPRA) - was ensuring the government's narrative was unchallenged in 2020-22.

Labelling a healthy person as a health risk by calling them 'unvaccinated' incorrectly assumes that they do not have natural immunity to the disease. This was a false assumption promoted by the industry that profited from vaccines in 2020, and it is the reason that there are no grounds for medical discrimination of the so called 'unvaccinated' ever.

Medical discrimination is a crime that has been protected in medical ethics and human rights codes for decades. It is up to all of us to ensure that this discrimination never happens again by putting pressure on our government to exit the World Health Organisation (WHO) and maintain sovereignty over our own government.
